On a device connected to the Internet, log in to My Esri with an account that has Licensing Permissions.

Navigate to My Organization > Additional Licensing Forms > Secure Site Operations

Go to Choose File and browse to the deauthorize.txt file you saved and click Upload

Your secure deauthorisation file will be converted into a secure license file which will automatically download on your device and appear on the bottom left-hand corner of your browser

Click on the file and allow it to run and make changes to your machine when prompted

You will be returned to the software deauthorization screen and your file automatically referenced. Click **Next** to proceed

oftware Authorization Wizard		>
Authorization Options You must authorize the license server prior to use. Select from the options below.		
Authorization Options		
O I need to authorize licenses on my license server.		
O I have already authorized core licenses and need to authorized core licenses and ne	orize additional extensions.	
 I have received an authorization file and am now ready to process. 	finish the authorization
